SMALL FRUIT PLANTS AND OTHER NURSERY STOCK

Location 2½ Miles Southeast of Cambridge, O.

Near Stop 5, Interurban Line

Strawberries will grow in nearly all soils that produce good crops of corn or potatoes. Imperfect varieties must have perfect varieties near them for best results.

Perfect Varieties

Chesapeake ✓ Pearl
Glenmary ✓ Senator Dunlap
Gov. Fort ✓ Early Jersey Giant
Helen Davis ✓ Joe Johnson
Dr. Burrill ✓ Kellog's Premium

Imperfect Varieties

✓ Bubach
✓ Buster
✓ Kellog's Prize
✓ Sample

CHESAPEAKE fruit is large and firm and of the very best quality. Medium to late.

GLENMARY.—Is one of the older varieties. Very much planted in most fruit sections as a market berry. Very large and bears big crops. Large, healthy plants. Season medium.

GOV. FORT.—This berry is very late and bears large crops of rather soft berries, but brings good prices on the markets.

HELEN DAVIS—Makes plenty of plants with healthy foliage and is a wonderful yielder. Commences to ripen early and makes a long season.

PEARL.—I have tried all of the latest berries and I find the Pearl is the very latest and best of the late varieties, the largest in size and sells for the best price. Have about 10,000 plants to offer this season.

SENATOR DUNLAP.—One of the best early varieties, bearing crops of medium sized berries. Plants small.

BUBACH.—Old well known sort. Medium season.

SAMPLE.—The old standby. One of the best. Midseason to late.

BUSTER.—The frost resister. An excellent plant maker, filling the row with strong, healthy plants. The fruit ranges from medium to large and makes a long season.

KELLOGGS PREMIUM.—The first to ripen with me, and the best early berry I have ever grown. Produces large crops and the last berries to ripen are nearly as large as the first and firmer. My supply of plants are limited, be sure and try at least 100 of this variety.

DR. BURRILL—I have not fruited this variety yet but the introducers claim it to be one of the best berries under cultivation. Berries dark red in color. Best quality, ripening early and producing berries over a long season. A good plant maker. I have a fine supply of plants of this variety.

Early Jersey Giant, Kellogs Prize, Joe Johnson, these 3 varieties are of the largest size and good producers. It will pay you to try them.

If you want strawberry plants in lots of 5000 to 20,000 write for special price, naming variety and number of each.

EVER-BEARING STRAWBERRIES

We have two varieties of the Ever-bearing Strawberry under cultivation: The Progressive and Superb. They are good producers of fair-sized berries, fruiting from June till frost.

EVER-BEARING STRAWBERRY PLANTS

| | | | |
|-------------|---------|-------------|------------|
| Progressive | 25—50c; | 100—\$1.50; | 1000—10.00 |
| Superb | 25—50c; | 100—\$1.50; | 1000—10.00 |

RASPBERRIES

CUMBERLAND.—The largest black Raspberry known, has been well tested in all sections, giving thorough satisfaction. Crop nearly all sold for this season. Only 500 to each customer.

PLUM FARMER.—The Plum Farmer is vigorous, healthy and productive. Early in ripening and matures its crop in a short time. Very fine and good flavor.

GREGG.—A vigorous grower and great yielder. Ripens later than Plum Farmer.

HAYMAKER.—Purple cap. Canes vigorous in growth, produces the largest crops of all. This Raspberry makes me more money than any other variety I have on the place. Crop all sold for this season.

CALIFORNIA PRIVET.—15c each; \$5.00 per hundred; three hundred for \$12.00.

Address all orders to

O. P. FOGLE,
R. D. No. 7 Cambridge, Ohio

CLAIMS.—If any, must be made upon receipt of plants, when they will be carefully examined and, if just, all made satisfactory. I send out only good plants in good condition, carefully packed, but success or failure depends in so large a degree upon the care and management after received that I do not, because I cannot, guarantee plants to live.

CERTIFICATE OF NURSERY INSPECTION

No. 59

Columbus, Ohio, Aug 15, 1919.

THIS IS TO CERTIFY, That the nursery stock for sale by O. P. Fogle, of Cambridge, County of Guernsey, State of Ohio, consisting of General Nursery Stock, has been inspected by a duly authorized inspector, in compliance with Section 1126 General Code, and has been found apparently free from dangerously injurious insects and plant diseases.

E. C. Cotton, Chief of Bureau.

N. E. Shaw, Secretary of Agriculture.

This Certificate granted under the provisions of Sec. 1135 General Code, is invalid after Sept. 15, 1920 and may be revoked earlier for cause.

NORTHERN GROWN FRUIT TREES AND ORNAMENTAL NURSERY STOCK

If in need of Peach, Pear, Cherry, Apple or other fruit trees, Rose Bushes, Shrubs, and other fruit and Ornamental Nursery Stock, we can supply your wants at very reasonable prices. These Fruit Trees, Shrubs, etc., are grown in Northern Ohio, are free from disease, healthy and first class in every respect. If interested write for prices.

Sometimes we are sold entirely out of certain varieties even before the digging season begins. If it so happens we are sold out of any variety you order can we substitute with another variety.
